

**Title: The Impact of the COVID-19 Pandemic and Related stressors on Graduate and Undergraduate Students at a Majority-Minority University in New York State**

**Corresponding Author:** *Meredith Maroney, Health Promotion Specialist/Staff Psychologist, Center for Behavioral Health Promotion and Applied Research*

"Your submission shed light on the hearts and minds of students during this difficult time. The introduction to your submission may leave the reader unclear as to where the paper is heading, however, the 5th paragraph provided clarity in direction. If possible, consider including focus on the impact of Covid-19 on the "...BIPOC, LGBTQ+, and international students, many of whom were experiencing a "double pandemic." Focussing on the experiences of this subgroup when compared to more traditional students is of greater value. Nonetheless, the themes that were provided and their discussion made a substantial contribution to the literature."
